

## AROUND the TOWNSHIP

By Henry Alderman

Jack Kleine at Centerville has a new pet. Kleine found a baby humming bird on the sidewalk outside his shop the other day. The creature was too young to fly. He took it indoors and has been feeding it on honey dipped from the end of a toothpick. The bird roosts on a lilac branch and during the day flies around Kleine's shop.

We received the following card in the mail this week. It was unsigned and we quote: "Please give us a biography of Mr. Dougherty. He writes as an old-timer. Where was he brought up, etc. Also ask him to give more information about where to see the surplus water go into the gravel pit. We did not find it."

The letter was unsigned. All right, Paul; better give an account of yourself in next week's column.

Scandal broke in the junior chamber meeting last week. The "kitty" containing 75 cents was missing. Four suspects, Cavanaugh, Attinger, Sharpe and Alderman, were forced to make up the deficit.

E. E. Dias is putting a new floor in the township jail at Niles. This is a noble enterprise and should inspire the prisoners to a better way of life.

### Winter Cover Crops Light

Generally, winter cover crops have been disappointing this year although due to government subsidies, more than usual have been planted. Fenugreek has been grown extensively by beet farmers this year for the first time. A really excellent cover crop of melilotus may be seen on the Metzger ranch at Mission San Jose. Matt Whitfield the ranch manager, tells us his success was the result of planting immediately following fall irrigation. Melilotus is a good bet for orchard land improvement where irrigation is available, but where the orchardist must depend on rainfall, it either starts too late or must be allowed to stand too late in the spring or both. At the high school a dozen varieties are growing at this time. These plots are small checks 4 by 30 feet, surrounded by high ridges, and were first flooded, then worked up and planted. It is interesting to see that mustard could not stand the accumulation of rain water in these checks and really succeeded only on the high edges. None others suffered from the flooding. Purple vetch areas will be cut and weighed April 20 and reported at the farm center meeting that night.

### Lilac Time

The days of spring always seemed to us too few and too fast flying. Ours too, has been the usual human experience, that the older we are, the faster they go. This week we have reached the days marked especially by the purple and white of the lilacs and by their sweet fragrance.

In our township, a hundred fence rows are now abloom with the lovely flower. It is a source of income to many, who sell the blooms into the city markets. Lilac lovers find many fine varieties at our local nurseries. Just over our township lines A. A. Oliver of Mt. Eden has one of the finest collections in the state. Mr. Oliver is not only a collector and authority on varieties but also a skillful propagator and a promoter of root stocks which make for long-lived plantings and perfect blooms. If lilacs only mean to you the small Persian blooms of other days, we suggest a trip to the Oliver lilac gardens. It will be a delightful surprise and revelation to you if you are a lilac fan.

### HOUSE SHORTAGE DEVELOPING AT NEWARK

NEWARK—The population of Newark is increasing so rapidly and houses are at such a shortage that the new chemical company in the act of constructing a \$600,000 plant is arranging with the Peerless Bus Company to run a special bus to Newark to bring workmen from nearby towns. It is estimated that 400 men will be at work shortly, all local labor.

The Wesvaco Chlorine Products Company, New York firm, recently purchased the California Chemical Company and is moving the San Francisco office to Newark on Saturday. At present 75 men are employed and this number will be increased to 400 shortly. In addition to building new units for the plant, a canal is being dredged from the marshes to the plant, a mile and a quarter long and about 100 feet wide. This is to increase the ease with which barges bring in oyster shells from the bay for the manufacture of lime and other products.

A. M. Pitcher is vice-president and general manager and Paul Gross is local plant manager.

### BURIED UNIDENTIFIED TRAIN VICTIM

IRVINGTON—If you want to see just what is meant by modern architecture and appliances, take a look at Joe Corey's new house on Roberts avenue in Irvington. An invitation to all his friends and any others interested has been issued by Mr. Corey and the house is open for inspection.

The building is of stucco and has an artistic stucco finish on interior walls. It has a shingle roof and hardwood floors throughout. Rooms include an entrance hall, large living room with colonial light fixtures and a stone fire place, a dining room, breakfast room, brick patio, kitchen, back porch, two bedrooms, bath and shower, concrete basement and laundry and numerous built-in features. Something new in the way of wardrobes have sliding doors which give an additional decorative air to the bedrooms which are tinted in pastel colors. The bathroom is done in orchid tile and is equipped with a clothes chute which dumps soiled linen to the laundry in the basement by a mere flip of the wrist. Every available inch of space is utilized in closets and cupboard space. Joe says if the family gets hard up they can rent the house and live in the closets. Which shows how to plan a house to suit the boss, the Mrs.

R. A. Griffin of Irvington is the contractor and the electric fixtures are furnished by Vieux Bros. of Niles. Step right up, folks, and take a look. It's worth it.

## Tree Dedication Ceremony Will Be Observed At Niles Park Saturday

### BENDEL FORESEES TOUGH YEAR FOR MOSQUITO-SUFFERERS

NILES—Roland Bendel today announced that the mosquito abatement district will make no more predictions about the 1937 crop of mosquitoes. Too much "unusual" weather keeps arriving and spoiling otherwise perfectly logical prophecies, Bendel pointed out.

As for example, Bendel cited the fact that early in March all the marsh drainage systems in Washington township were operating nicely, most of the flood waters had been drained off, and it appeared as though there would be little difficulty with migratory marsh mosquitoes this year. And then came two weeks of rain which caused more flooding than has occurred in southern Alameda County since the formation of the mosquito abatement district in 1930.

When this water recedes, Bendel anticipates lots of marsh mosquito breeding. The Washington Township anti-mosquito crew are getting their oiling equipment ready for a big job. But no more predictions, Bendel says. There might be another flood.

### BAPTISTA FINED FOR DRIVING

## MASONIC HOME NEWS.

DECOTO—With the compliments of the Masonic Home a dozen members of the jolly crew of men and women who each week-day morning gather around a long green table in Chef Carpenter's domain lending a hand in the preparation of vegetables for a day's ration of around 400 people composed a theatre party to Hayward, Saturday afternoon, April 3. The play, which was enjoyed, was "The Green Light".

Mr. and Mrs. Ed North, members of the Decoto Home U. S. Mail Carriers, were the chaperones. Jack Witkosky and Chas. Sebrer of the Home's staff of drivers, were the chauffeurs. All with one exception, were decorated with white flowers closely resembling orange blossoms, but lacking the fragrance. Fred Waite, genial foreman of the kitchen crew, in the absence of the head piece of his working uniform, sported a pretty blue flower in the lapel of his coat.

Returning home twenty minutes before the clanging of the supper bell a unanimous vote of thanks was passed up for the pleasure brought in the outing.

## WHO PIONEERED THE GREAT BRIDGES?

While skeptics wagged their heads, far-seeing men launched one of the great engineering feats of the past decade and blazed a trail for the mammoth bridges of today.

They built a highway bridge across the Carquinez Straits and opened it in 1927.

It was a courageous project. Courageous men met the unknown hazards of a pioneer enterprise and courageous neighbors, sensing its value to the people of the State, backed it with their savings.

California was proud of the Carquinez Bridge... then! It broke a bottle neck which had existed since the days of the Padres and opened up a major channel of transportation for California. It has saved inestimable time and money to millions of automobile and truck owners.

California made a contract with the bridge builders... a 25 year franchise to justify their investment... ending in 1948. At that time it will become the State's property FREE OF ANY COST.

Today... politicians threaten to violate the sanctity of that contract and confiscate our investment in the bridge, which can be retained only by receiving the revenue from its operation until it automatically becomes the property of the State.

## Shall More Gasoline Tax Funds Be Diverted?

Only the vigilance of California citizens has thwarted the many political schemes to divert to strange uses the proceeds of the gasoline tax. How often have the people who pay the tax demanded that its funds be kept inviolate, for use in ALL the counties in the construction and maintenance of needed highways!

Yes the greatest of all these diversion schemes appears in the plan to take over all toll bridges and operate and maintain them by using gasoline tax funds.

Already the huge San Francisco-Oakland Bridge is consuming those funds. Now comes the plan to take over the Carquinez and Antioch Bridges. Next in line will be the San Mateo-Hayward and Dumbarton Bridges. And then, perhaps, will come the beautiful but costly Golden Gate Bridge.

To maintain these structures will cost over a million dollars a year... money that must come out of the gasoline tax funds... instead of being paid in tolls by those who use the bridges.

In your county today are roads that need repair, small bridges that are unsafe, new roads that should be built to meet the growing traffic. When will this work be done if more and more of the highway funds are diverted to the costly maintenance of a few big bridges.

Owners of the Carquinez and Antioch Bridges oppose their acquisition because the State ratified a contract with them that lasts until 1948... WHEN THE PUBLIC WILL GET THE BRIDGES ABSOLUTELY FREE.

Protect the gasoline tax fund! Write your representatives at Sacramento opposing its further diversion.

### ARE WOMEN REALLY MORE VAIN THAN MEN?

By Mrs. C. H. Franklin  
(An interview with Mrs. Sladek)  
Well, let's think about that a little while. Of course our husbands would laugh at the idea of even considering the question seriously. They would say, "Everybody knows that women are vain and everybody knows that men are not", and let it go at that.

But the other day the idea occurred to me that probably we women were taking this too much for granted. This is what made me stop and think.

I was in an office building in the city, waiting for a friend. I was watching the elevators and could see a panel mirror hanging near them. Many women passed, busy shoppers, most of them, intent on their parcels or their children, and

not one of them so much as glanced at the mirror.

Only three men came by, and was it a coincidence? Did it just happen that the only three vain men in the world passed by just then? Anyhow, one paused a second to brush his hand over his hair, another to jerk at his tie, and the third pulled a corner of a handkerchief a little farther out of his pocket, turned his head this way and that, and actually smiled at his image in the mirror.

This made me think. I wondered if the stronger sex truly deserved their reputation for being un-conceited. And I began trying to recall men I knew whom I considered vain. It wasn't hard at all to think up quite a few.

There is Mr. J in San Francisco. While I was at a friend's house he came by with a fish as a gift. He had just come back from a trip and started while still in the hall, to tell about those big ones that got

## PRINCIPALS MAKE PLANS FOR SCHOOLS WEEK APRIL 26 TO 30

CENTERVILLE—A meeting of school principals and trustees was held at Washington Union High School recently at lunch to plan for the observation of Public Schools Week, April 26-30. Those present were A. J. Rathbone and J. V. Gool of the high school; L. H. Maffey of Warm Springs, E. D. Bristow, Joe Gomes and Ben Murphy of Niles; Tom Scales of Irvington; W. L. Musick of Decoto; Tom Maloney of the Centerville Grammar School.

### To Visit High School

All schools will hold open house during Public Schools week and dates for community affairs will be announced later.

On Friday, April 30, eighth-grade students from the various grammar schools, will visit the high school and will be taken on a tour of the plant. There will be a special assembly in their honor and they will have luncheon in the cafeteria.

### Other Meetings

Other meetings suggested by the committee are as follows: Centerville Lions Club program; afternoon tea at the Niles Grammar School and luncheon meeting of the Niles Chamber of Commerce to be served by the P.-T.A.; an evening program at the Warm Springs school; an out-door program at the Irvington school; a joint meeting of the Junior and Senior Chambers of Commerce at the Decoto Fire Hall. The Men's Club of Washington Township will be asked to put on a public schools program at their regular April meeting to be held at the Country Club building in Centerville. It has been suggested that members of the Country Club participate in this program.

away. But upon hearing that I, a strange lady, was in the living room, he backed away, with mumbled apologies for his fishing clothes. Later he came back, all shaven and shorn, embarrassed no longer, but very charming and gracious.

Now, that is another contention of mine. It is impossible for men to appear at ease if they are not dressed for the occasion. They feel awkward and conspicuous, but of course they wouldn't if they were not vain.

It so happens that these same friends brought Mr. X with them one day and stopped by to see me. I had been working in the kitchen and had on a house dress and apron. But did I retire in a panic? Indeed not. I did what any other woman would have done, made them feel welcome. You see women can forget their clothes. They're not vain.

I also remember Mr. Y. He was rich and he had a yacht. He liked to take people over it, and talk about it, show them this and be sure that they didn't miss that. Would you say that he was vain about it? Well, I don't know. But he had enough mirrors to satisfy an actress.

But young Mr. Z! He proves my point beyond a doubt. All the men like him, a man's man, athletic. And yet he washes his face in oat meal. Told me so himself. Explained quite seriously that it kept the pores small. Now it may be that all the ladies of my acquaintance wash their faces with oatmeal to keep their pores small. But I doubt it.

Yes, I know. The men will be sure to bring up the beauty parlor. And so here's the place for me to mention the barber shop. I know many, many women who go into a beauty shop and say, "I washed my own hair and just want a finger wave today". And that's all they get. But how many men do you know who go into a barber shop for a hair cut and come out without a shampoo, a shave, and a bottle of hair tonic in their hands,

## THEATER DUE FOR BIG TIMES

**NILES**—Manager Bill Helm of the Niles theater is starting numerous campaigns of entertainment this week.

Screeno starts Saturday. Screeno is a game which most people know about and, Bill thinks, should add

to the enjoyment of all local theatre-goers.

Plans also are under way to give some local youngster a real automobile in miniature. The machine is on exhibition at the theatre building. In it is a Shirley Temple doll which also is to be given away.

The movie programs continue to be on a high level of entertainment. Next week's shows include "Lloyds of London" and a Popeye cartoon on Friday and Saturday. "The Black Legion" comes on Sunday and Monday.

Followers of Kay Francis will see her in "Stolen Holiday" on Wednesday and Thursday.

## Congregational Church

The group had a very enjoyable evening. Fifteen of the local organization attended the affair. Beginning next Sunday evening the young people will continue their weekly meetings, which have been held the past two weeks due to outside activities. All who are interested are invited to attend.

Of this cost \$6.60 represented labor. If we assume the \$15 price to be \$2 greater than that paid last year, then labor costs would have to ad-
